

EXAMPLE JOB DESCRIPTION

Landscape Maintenance Operative Job Description

Salary: DOE

Location: Essex

Permanent job position

You will be part of a successful team, working as one of the principal Mobile Landscape Maintenance Operatives in soft landscaping and grounds maintenance. You will have a key role in the ongoing success of the company.

You will use your grounds maintenance skills to maintain the company's projects to the highest standard. As a landscape operative, you will often be "Front of House", communicating with clients and representing the company.

Landscape Maintenance Operative Responsibilities

In this role you will be providing a full range of landscape maintenance services, including soft landscaping and grounds maintenance. You will be responsible for areas associated with new build housing developments, ensuring they are maintained to the highest standards.

You will have a reasonable knowledge of gardening practices and regular duties will centre on:

- Planting
- Plant care
- Pruning
- Weeding
- Litter collection
- Spraying
- Maintenance of grassed areas

You will ensure that you have the correct uniform and PPE and that all vehicles and machinery you use are in good order and safe to operate.

Requirements for this Landscaping Job

- Driving licence required
- CSCS card desirable
- Spraying licence PA1 and PA6 would be an advantage

The Company You will Be Working For

Our client is a leading soft landscaping installer working with some of the largest housebuilders and commercial property developers.
