

EXAMPLE JOB DESCRIPTION

Landscape Operative Job Description

Salary: DOE

Location: Cambridgeshire

Permanent job position

As a landscape operative, you will be part of an experienced team creating bespoke landscape projects that include a wide variety of soft landscaping installations. Projects will vary according to the client's requirements and the designer's interpretations. This results in every project being different and no two days on site are ever the same. Your work as a soft landscaping operative will ensure that every client gets the award-winning landscape that they expect.

Landscape Operative Responsibilities

We have multiple positions for soft landscaping operatives and this job will give you the opportunity to develop new landscaping skills and gain further qualifications. Your principal duties will include:

- Planting in accordance with specific instructions
- Turfing
- Barking and mulching
- General horticultural duties as required
- Ensuring the various skips are loaded correctly and safely
- Making sure that completed work is recorded and reported
- Communicating any issues or problems with your Team Leader
- Notification of any health and safety issues, observations or accidents in line with company procedures
- Making sure you have the correct uniform and PPE
- Ensuring that all vehicles and machinery are in good order and safe to operate
- Making sure that all tools and equipment are well maintained, clean and serviceable

Requirements for this Landscaping Job

- Previous experience in a landscaping, labouring or horticulture job (1+ years)
- CSCS Card is desirable
- UK driving licence essential

The Landscaping Company You will Be Working For

In this landscape operative job you will be working for a successful landscaping company. Working for this company will provide you with the following benefits:

- Overtime
- Holiday: 29 days inclusive of Bank Holidays
- Pension
